

OUR SERVICE

We have moved slightly away from ala cart pricing. The color demand and lightning service that has come with the looks of today have moved us into this new pricing with our lightning services. For our Balayage services, Bonder treatments and glosses are already included in pricing. Highlight services come with a gloss. By doing this, our goal is to better reflect the actual price of each lightning service.

To maintain the quality of the hair and ensure the best results at D'Amici Salon. Olaplex or Redken PH Bonder is added. These state-of-the-art bonding additives repairs while it lightens, leaving the hair in better condition then it started.

EXTENSIONS

Pricing Upon Consultation

We offer many different types of extensions and work with many different brands. Depending on your type of hair and end result desired, our extension specialist will guide you in the right direction that best fits your desired result. Hair is supplied and purchased through the salon.
